

Filter Cart (ECOCART)

Our (ECOCART) Economical Carts are designed for multiple uses including fluid transfer, re-circulation of a reservoir in operation, or bulk oil storage prior to use. ECOCART units can be equipped with both water and particulate removal filters for maximum performance, which will result in clean dry oil.

Applications

- Power generation (lube room/gearbox)
- Petro-chemical (lube oil room storage)
- Pulp & paper (lube room/gearbox)
- Mining (truck shop maintenance)
- Manufacturing plants (hydraulic & gearbox)
- Marine (hydraulic, lube oil)
- Steel mills (gearbox application)
- Oil & Gas (hydraulic, lube oil)

Standard Features

- Flow Rate: 5 GPM, 10 GPM, 15 GPM, 20 GPM, 30 GPM
- Viscosity Ranges: ISO VG 32, 46, 68, 100
- Micron Ratings: 10 microns, 15 microns
- Voltage Options: 115 V DC Single Phase, 220 V DC Single Phase, 220/460 V DC 3 Phase
- Temperature: -30 °C to +100 °C (-22 °F to +212 °F)

NOTE: Other options available upon request
